

SCIENCE FICTION  
IS NOT FICTION ANYMORE.

BACK

FRONT

Created by Godrej Locking Solutions and Systems, Advantis is a high-tech lock that sits neatly between science and science fiction. As its name suggests, this is a seriously advanced lock. Packed with almost space-age functions that are also simple to use. Simply put, Advantis brings the future of home safety onto your door.

**ACCESS MODE:**  
Password: 4 to 12 digits for enhanced password strength (register upto 4 unique passwords).

**PRIVACY FUNCTION:**  
If the safety button is switched on, the lock can't be opened from outside by either RFID or password. Only mechanical key override is possible.

**LOW BATTERY INDICATION:**  
A beep sound alerts you in advance to replace the battery.

**COMPATIBILITY:**  
The lock is compatible with the remote and video door phone for ease of operation

**MULTI-LEVEL VOLUME CONTROL:**  
Adjustable volume with mute function for silent operation.

**BREAK-IN DAMAGE ALARM:**  
Alarm goes off if the password is entered incorrectly 5 times in a row.

**FIRE SENSOR:**  
Automatically unlocks the door in case of a fire\*.  
\*Conditions Apply

**AUTOLOCKING:**  
Eliminates the hassle of manually locking the door.

**RFID CARD:**  
Register upto 100 cards for multiple user access.

**MULTI-TOUCH FUNCTION :**  
An option which throws three random digits after you have typed in your password, so that the fingerprints seen on the screen are unrecognisable.

**ADJUSTABLE SPYCODE:**  
Random numbers can be added before or after the password in the presence of strangers, thereby maintaining secrecy.

**EMERGENCY BATTERY:**  
In case the battery is completely discharged, an external 9V battery can be used to operate the lock.

**MECHANICAL KEY:**  
In case of an emergency, the lock can be opened with a mechanical key.
